## CURIOUS CROWD GREETED ANNE

A crowd in which curiosity appeared to be the guiding motive turned out last evening to hear the address of Miss Anne Martin. Miss Martin's talk was that of the superstitious, based upon the theory that "I am right, and everything else is wrong; the government is wrong." She criticized Democrats and Republicans alike and attempted to leave the impression that her election was the remedy for all the ills which this country is suffering. The departure of quite a number of persons from the hall during her speech made it difficult to hear. One of the most noticeable features of the meeting was the rapidity with which the crowd left when Mr. Martin came. He was accompanied by Miss Martin to this city, started to take a collection for campaign expenses at the end of her speech.

At the time the question of the Japanese exclusion resolution came before the legislatures of California and Nevada, President Roosevelt strongly requested the legislatures of both states to refrain from passing the said resolutions because of diplomatic negotiations he was having with Japan which would have been seriously injured had the said resolutions been passed. California heeded the request of the president and refrained from passing the said resolution and a strong delegation went to Washington from California headed by former Mayor Schmitz. Oddie voted against the said resolution just as California did at the request of President Roosevelt who was handling this difficult question in a more effective way than the state legislatures could have done under the said resolutions.

## NEVADA PIONEER DIES ON COAST

Robert L. Fulton, one of the builders of the state of Nevada, died at Oakland Monday evening. Mr. Fulton enjoyed a wide acquaintance in the state and had much to do with its development. He was born in Ohio in 1847 and came to Nevada in 1875, settling in Reno, where he first served as land agent for the Central Pacific and later purchased the Reno Gazette, which under his management became one of the strongest papers of the state. He was a staunch Republican, always ready and willing to serve his party.

Mr. Fulton was a man thoroughly awake to the needs of the state and of the community in which he lived for so many years. He was a student of the soil and prepared many valuable articles dealing with the agricultural development of the state. He took an active part in boosting irrigation projects and was one of the first men to recognize the necessity of advertising the resources of Nevada. ## H. S. TEAM PLAYS BISHOP SATURDAY

The football team was out in force today marking off the field and lining it in preparation for the big game with Bishop next Saturday. Those who attended last year's encounter with the hayshakers will remember their size and the fight the little boys put up against them. Reports say that the Bishop team has as many six-footers this year as last, so it will be up to Tonopah's team to rely upon speed and cleverness to beat them since the local boys are small but fast.

Although there are only a few out for football this year, most of them show considerable ability. Six of last year's team are on the job again and with their experience expect to make a good showing.

A sturdy team will be picked from the following men: Hug, Byrne, Harrington, McVeigh, L. Henderson, J. Henderson, Swasey, Rose, McGinn, Toland, Clendenning, Anderson, McQuillan, Fee, Humphrey and Conors.

## HAS ONE HUNDRED MILES OF TRAPS

Martin Madison, whose trapping record made last year excited interest all over the west, is again operating in the Plache section, having a new line over 100 miles in length, making his base at Big Springs, near Atlanta. On this line he sets two traps to the mile, apparently baited, but in reality baited with a secret preparation known only to himself, which has such a wonderful efficiency that a wandering coyote will turn in his tracks to investigate. On a recent round of his traps, Madison landed 30 coyotes, four bobcats, two gray swift foxes and a badger. He works with incredible swiftness, tapping his coyote on the nose, stunning him and then killing the animal by a blow over the heart. The skinning is completed in about two minutes and then the trapper is on his way for his next victim. The traps are visited every other day, a powerful automobile being utilized for the purpose.—Plache Record

THIS SPACE HAS BEEN PURCHASED BY THE FRIENDS OF TASKER L. ODDIE

Do you want the Japanese as your neighbors?

Do you want Japan to establish colonies on the Pacific Coast of Mexico?

Do you want that right submitted to the League of Nations?

Or do you want the Monroe Doctrine to live on?

Some say the Monroe Doctrine is not affected by the League of Nations.

Senator Lodge wanted to make it clear by this reservation:—"The United States will not submit to arbitration or to inquiry by the assembly or by the council of the League of Nations, provided for in said treaty of peace, any questions which in the judgment of the United States depend upon or relate to its long es-

tablished policy, commonly known as the Monroe Doctrine; said doctrine is to be interpreted by the United States alone and is hereby declared to be wholly outside the jurisdiction of said League of Nations and entirely unaffected by any provision contained in said treaty of peace with Germany."

President Wilson refused to accept this reservation. Governor Cox has accepted the President's stand. What does that mean? It means the League to them is greater than the Monroe Doctrine.

Not so with Tasker L. Oddie. As a Senator he will vote against the League and for our country. He will support the Republican President. We need them both to preserve the Monroe Doctrine and our national integrity and honor
